

SANCIDF Statutory Budget
(PRJ-0072-2015)
SA National Committee of IDF

Year 2015 (January 2015 till December 2015)

Project goals

Goal 1 - Review SA Representatives on IDF bodies (SC's, AT's etc)

Achievements

With the retirement of Mr. Bertus de Jongh, Ms Christine Leighton was appointed primarius member of the Standing Committee on Marketing and Mr Alwyn Kraamwinkel was appointed sekundus member of the same SC. All other members of SC's are still in place and therefore no review was necessary.

No Non-achievements / underperformance has been reported

Goal 2 - Ensure appropriate and timely inputs by SANCIDF and SA representatives on IDF bodies to IDF

Achievements

Seven requests for comments were received during this year. They were:

NWI 15-01: ISO 17678 | IDF 202. Milk and milk products — Determination of milk fat purity by gas chromatographic analysis of triglycerides (Reference method) - revision of the scope. Approved 20150306

NWI 15-02: Guidelines for the use of in-line infrared spectrometry. Approved 20150312

NWI 15-03: Provision of background material to indicate the need to apply a potential conversion equation for quantitative determination of bacteriological quality in milk. Approved 20150313

NWI 15-04: Infant formula and adult nutritionals -Determination of total iodine in infant formula and adult/pediatric nutritional formula by inductively coupled plasma - mass spectrometry (ICP-MS)

NWI 15-05: Infant formula and adult nutritionals -Determination of chromium, selenium, and molybdenum by inductively coupled plasma-mass spectrometry

NWI 15/06 A Nutrition Initiative providing FAO with nutrition info at schools. A reply was sent to IDF on 21 July.

Update of review of scientific literature pertaining to Nitrogen Conversion Factor.

We replied to the following New Work Items during 2015:

NWI proposal 15/04: Infant formula and adult nutritionals - Determination of total iodine in infant formula and adult/pediatric nutritional formula by inductively coupled plasma - mass spectrometry (ICP-MS)

NWI proposal 15/05: Infant formula and adult nutritionals -Determination of chromium, selenium, and molybdenum by inductively coupled plasma-mass spectrometry

There were also results of voting. They were:

NWI 15-04: (described above)- 15 countries voted in favor, one abstained and 14 did not reply.
NWI 15-04 (described above) - 16 countries voted in favor, one abstained and 13 did not reply.
The following three questionnaires were received and replies to all were sent in this year:
Q 0215 - Determination of fatty acids
Q 0315 - Determination of iodine
Q 0415 - Determination of chromium, selenium and molybdenum

No Non-achievements / underperformance has been reported

Goal 3 - Inform dairy industry role-players of IDF publications in The Dairy Mail and Milk Essay

Achievements

Four Bulletins (see details Goal 4) were received during the year and particulars about these documents were published in the December 2015 issue of The Dairy Mail.

The Four Standards (see details Goal 4) received, were received during November and December 2015 when industry publications already reached their deadlines. Particulars about these documents will be published in 2016 issues of The Dairy Mail and Milk Essay.

No Non-achievements / underperformance has been reported

Goal 4 - Make information produced by the IDF (Bulletins, Standards and Newsletters) available to levy payers and the general public

Achievements

Four Bulletins and four Standards were received during the year and were distributed to industry representatives. They were:

Bulletin 478/ 2015 - Interlaboratory collaborative study on a flow cytometry method for lactic acid bacteria quantification in starter cultures, probiotics and fermented milk products according to ISO 19344/IDF 232.

Bulletin 479/ 2015 - A common carbon footprint approach for the dairy sector - The IDF guide to standard life cycle assessment methodology.

Bulletin 480/ 2015 - The contribution of school milk programmes to the nutrition of children worldwide.

Bulletin 481/ 2015 - The World Dairy Situation 2015

IDF-231-ISO-16958-2015E - Determination of fatty acids in milk, milk products, infant formula and adult nutritionals.

IDF-232-ISO-19344-2015E - Quantification of lactic acid bacteria by flow cytometry in starter cultures, probiotics and fermented products

IDF-234-ISO-20647-2015E - Determination of total iodine in infant formula and adult nutritionals.

IDF-235-ISO-20649-2015E - Determination of chromium, selenium and molybdenum in infant formulae and adult nutritionals.

The Newsbriefs, newsletters and press releases received during 2015, were all sent to representatives of processors and milk producers as well as to all SA representatives on Standing Committees. They were:

Newsbriefs:

IDF Newsbrief - Issue 104 – March 2015

IDF Newsbrief - Issue 105 - June 2015

IDF Newsbrief - Issue 106 - September 2015.

IDF Newsbrief - Issue 107 - November 2015

Newsletters:

IDF WDS 2015 Newsletter: January 2015 Abstract Submission Launched

Online registration for the IDF/ISO Analytical Week 2015 is now available
IDF WDS 2015 Newsletter: February 2015 Registration & abstract submission for Analytical Week
Call for Abstracts for the Dairy Science & Technology 2016 Symposia in Dublin, Ireland is now open
IDF WDS 2015 Newsletter: Early Registration and Abstract Submission for WDS 2015: deadline extended till April 30
Newsflash about the Codex Committee on Methods of Analysis and Sampling (CCMAS) held in February in Budapest
IDF WDS 2015 Newsletter: Early registration and abstract submission ends on April 30!
IDF WDS 2015 Newsletter: Fresh updates from IDF World Dairy Summit 2015
IDF President: IDF World Dairy Summit is a key part of the glue that holds the dairy sector together
Animal Health Newsletter No 9 – September 2015.
Seven Newsletters about IDF WDS 2015. See goal 7 for details.
Press releases:
IDF explores new opportunities for non-cow milk production
Press release about the release of World Dairy Situation 2015.
Press release about the results of a global survey by FAO and IDF.
Press release about the FENS Satellite Symposium revealing beneficial health effects of regular fat dairy foods.
Press release about the New IDF/ISO method speeds up quality control and facilitates trade of probiotics and starter cultures.

No Non-achievements / underperformance has been reported

Goal 5 - Publish titles of the IDF Bulletins, Standards and News Releases on the Milk SA Website

Achievements

All Bulletins, Standards, Newsbriefs and Press Releases received during the year were loaded on to the Milk SA website

No Non-achievements / underperformance has been reported

Goal 6 - Ensure that general issues are brought to the attention of the IDF

Achievements

SANCIDF brought the following matters to the attention of IDF:
Our viewpoint on a number of matters emanating from the General Assembly held in Paris in December 2014.
Our concerns about the high membership fees (in SA Rand).
The value of membership of IDF.
Our concern about the co-operation between IDF and GDP (in conjunction with CNIEL)
Reply to the MEAS study on Emerging Private Sector Extension Models .
That we were not asked for input to the SCDPE country reports and why the National Secretary is not copied on requests to SC members for input.
We informed IDF of our concern regarding the proposed co-operation between IDF and GDP.
The main issue of concern was that IDF's standing as representative of the whole dairy industry on International Governmental Organisations (IGO's) like FAO, WHO, OIE, Codex etc. may be jeopardized if GDP represented the dairy industry on the focus areas of Nutrition and Health and Environment
An article on research by University of California indicating a link between infection with a bovine

leukemia virus and human breast cancer.

The National Committee's opinion that now (November 2015) was not the appropriate time to start looking for a new Director General (where the contract of the current DG only expires early in 2017).

Our concern about the increasing number of sustainability organizations viz GDAA, DSF and GSF.

IDF returned acceptable replies to all points.

No Non-achievements / underperformance has been reported

Goal 7 - Promote the forthcoming World Dairy Summit (Villnius - Lithuania) amongst dairy industry role-players

Achievements

Nine newsletters regarding WDS 2015 were received this year. All were sent to SANCIDF members, Standing Committee members and to associate members of SANCIDF. Some articles were also published in The Dairy Mail as indicated:

Important events in 2015 - WDS 2015 (also published in The Dairy Mail February 2015 issue)

IDF Dairy Farmers Forum taking place at WDS 2015 (also published in The Dairy Mail April 2015 issue)

Early Registration and Abstract Submission of WDS 2015: deadline extended till April 30

Early registration and abstract submission ends on April 30 2015

Fresh updates from the IDF World Dairy Summit 2015.

IDF President: IDF World Dairy Summit is a key part of the glue that holds the dairy sector together

Dr. Jeremy Hill on the IDF World Dairy Summit.

Come for the summit, stay for Lithuania.

The IDF World Dairy Summit 2015 is officially open!

1st issue of the Summit Daily

2nd issue of the Summit Daily

3rd issue of the Summit Daily.

4th issue of the Summit Daily

No Non-achievements / underperformance has been reported

Goal 8 - Give meaningful feed-back of the latest WDS to the local dairy industry

Achievements

One person financed by this project and four persons financed by SANCIDF gave feedback in 2015 and the other three financed by this project, will give feedback in 2016.

Non-achievements / underperformance

Three out of four delegates financed by this project, were late in submitting their reports. Most of the reports received were not of a very high standard, not in the right format and not useable for publication in dairy industry media.

Reasons for non-achievements / underperformance

Instructions given for the reports

were apparently not clear enough and there were no measures in place to compel delegates to submit reports.

Planned remedies for non-achievements / underperformance

The SANCIDF Executive Committee is formulating procedures to ensure timeous and proper reporting on WDS's in future.

Goal 9 - Obtain annual reports from South African representatives on IDF bodies (Standing Committees, Action Teams, etc)

Achievements

The following reports were received at the AGM held on 24 March 2014:

SCAHW: Animal health and welfare - Dr Vincent Turner

SCDST: Dairy Science and Technology – Dr Jan Floor

SCENV: Environment – Dr Heinz Meissner

SCFM: Farm Management – Dr Koos Coetzee

SCM: Marketing – Ms Christine Leighton

SCNH: Nutrition and health – Prof Hettie Schönfeldt

SCNH: Nutrition and health – Ms Maretha Vermaak

These reports are available from the SANCIDF office

No Non-achievements / underperformance has been reported
