All but one of the SA representatives on IDF Standing Committees and Task Forces appointed by the Executive Committee at its 23 May 2013 meeting (as reported in the previous quarter) accepted the appointment. Stiaan Bester, SC Analytical Methods for Dairy Microorganisms declined the appointment due to pressure of work. Dr Jan Floor is the primarius member of this SC and will continue to represent SA on this committee. All the other names and contact detail were given through to IDF

No Non-achievements / underperformance has been reported

Goal 2 - To ensure that SANCIDF make appropriate and timely inputs to the IDF through the SA representatives on the various IDF Standing Committees

Achievements

All the appointees mentioned in Goal 1 were requested to send their replies to questionnaires to the National- and Technical secretaries so that the replies from SA can be co-ordinated. During the year, replies were sent to IDF on 6 questionnaires and 4 proposals for New Work Items

No Non-achievements / underperformance has been reported

Goal 3 - To make information produced by the IDF (such as standards, bulletins and newsletters) available to the levy payers and the general public

Achievements

The following documents were received during this year:

Bulletins:

- 461-2013 Collaborative studies on methods to determine enzyme activity in cheese making
- 462-2013 Identification of probiotics at strain level
- 463-2013-Proceedings-of-the-Nutrition-and-Health-Conference-WDS2012.
- 464-2013 - Emerging-Dairy-Sector-Conference-WDS2012.
- 465-2013 - Identification-and-assessment-of-emerging-issues-with chemical contaminants in dairy products.
- 466-2013 - Guidelines-for-the-use-and-interpretation-of-bovine-milk-SCC-in-the-dairy-industry.
- 467-2013 - Determination-of-the-acidification-activity-of-dairy-cultures-by-CpH.

- 469-2013 - Requirements-for-Refer-Materials-for-the-Calibration-of-Automated-SCC.
- 470-2013 - The-World-Dairy-Situation-2013.

The following Standards were received:

- IDF/RM 51 - ISO/TS 18083 (2013) - Processed cheese products — Calculation of content of added phosphate expressed as phosphorus.
- IDF 141 - ISO 9622 (2013) - Milk and liquid milk products - Guidelines for the application of midinfrared spectrometry
- IDF 230 - ISO-15495-2010- Milk, milk products and infant formulae - Guidelines for determination of melamine and cyanuric acid.

Two News Briefs, one Leaders Brief, thirteen press releases and one Fact Sheet were received during the year.

All these documents were sent to SAMPRO whose members are levy payers and were also uploaded on to the Milk SA website from where the general public could order them.

No Non-achievements / underperformance has been reported

Goal 4 - To provide Milk SA with the titles of standards, bulletins and news briefs as published by the IDF for publication on its website

Achievements

All Bulletins, Standards and Press Release/News briefs were sent by e-Mail to the CEO of Milk SA. The bulletins, Standards and IDF Newsbriefs were also uploaded on to the Milk SA website by the National Secretary.

No Non-achievements / underperformance has been reported

Goal 5 - Forward Bulletins and Standards received to members of SANCIDF and the organized dairy industry

Achievements

All Bulletins and Standards received during this quarter were sent to representatives of SAMPRO, MPO and DAFF all of whom are members of SANCIDF and the also comprise the organized dairy industry. (This goal duplicates Goal 3).

No Non-achievements / underperformance has been reported

Goal 6 - To ensure that the general issues are brought to the attention of the IDF

Achievements

The first general issue that was brought to the attention of IDF was to inform them that the Global Feed and Food Congress that was to take place in South Africa, was promoted in The Dairy Mail

Another general issue that occurred is related to a viewpoint on the term soybean milk which was to be discussed at the May meeting of Codex. At the Feed and Food congress, Mr. Joerg Seiffert from IDF requested Mr. Nico Fouche that SANCIDF should request the SA representatives on the Codex Committee to support the IDF position statement on soybean milk namely, that it should be called soybean beverage. The Secretary was tasked to arrange a meeting between industry representatives and SA's Codex representatives. Unfortunately the numerous e mails to the Milk SA CEO to establish who the industry representatives are, did for some reason not reach him until 18 May 2013. The Codex Committee meeting in question took place from 14 – 17 May. On 3 June, Joerg Seiffert informed Mr. Fouche and the Secretary that the SA delegation to the Codex Meeting, did not support the IDF position above.

Non-achievements / underperformance

The SA delegation to the relevant Codex Committee meeting could not be put in contact with dairy industry representatives

Reasons for non-achievements / underperformance

communication problems

Planned remedies for non-achievements / underperformance

Subsequent to this turn of events, the SANCIDF Executive Committee decided that all Codex related matters should be referred to Mr Jompie Burger who will discuss such matters with DAFF and Dept of Health

Goal 7 - To promote attending the World Dairy Summit (WDS) amongst local dairy industry leaders

Achievements

WDS 2013 was promoted in three articles written for The Dairy Mail. Seven News briefs relating to WDS 2013 were circulated to Industry members on the EC as well as to all associate members and Standing Committee members.

No Non-achievements / underperformance has been reported

Goal 8 - To give meaningful feedback of WDS to the local industry

Achievements

At its last meeting before WDS 2013, the Executive Committee decided that it would consider the format and date of feedback at its first meeting in 2014. The President and Secretary did however, make presentations about WDS 2013 at the General, Members' meeting of Milk SA held on 15 November 2014. Also, in December an article (in Afrikaans) reporting briefly on WDS 2013 was published in The Dairy Mail.

No Non-achievements / underperformance has been reported

Goal 9 - Get reports from SA members on IDF Standing Committees, Work Groups and Action Teams

Achievements

Two reports from SA members of standing committees were received at the AGM of SANCIDF held on 26 March 2013

Non-achievements / underperformance

A number of SA SC members dis promise to send reports but it was never received

Reasons for non-achievements / underperformance

Presumed pressure of their normal job

Planned remedies for non-achievements / underperformance

For the 2014 AGM, notices of the meeting and requests for the reports were sent out well in advance of the meeting and a good response is expected

Goal 10 - Report on IDF / SANCIDF matters in The Dairy Mail

Achievements

Seventeen articles were written for the twelve issues of The Dairy Mail published during this year.

They were:

WDS 2012 - Over but still alive

4th Global Feed and Food Congress, 8-12 April, Sun City, SA

2013 World Dairy Summit, 28 Oct To 1 Nov, Yokohama, Japan

New Fact Sheets Available

Water footprint of dairy production systems and products: A Standard methodology for water assessment

The economic importance of dairying

Responsible use of antimicrobial agents

Good feed for better food

New leadership for SANCIDF

Utilization of surplus created by hosting WDS 2012

WDS 2013

Healthy living with dairy

Clostridium Botulinium

The FAO's assessment of the environmental impact of the livestock sector

An article (in Afrikaans) reporting briefly on WDS 2013

The World Dairy Situation

No Non-achievements / underperformance has been reported

Goal 11 - Arrange feed-back from WDS 2013 to be made available to the local dairy industry (Target date: Nov / Dec 2013)

Achievements

As mentioned in Goal 8, the Executive Committee of SANCIDF decided at its last meeting before WDS 2013 that it will only consider the format and date of feed-back on WDS 2013 at it's first meeting in 2014. It was therefore not possible to arrange a feed-back session during this year.

No Non-achievements / underperformance has been reported
