Achievements

Not applicable to this quarter

No Non-achievements / underperformance has been reported

Goal 7 - To liaise with IDF re sustainability and environment by providing timeous input from SA and communicating information from IDF to the SA industry

Achievements

Report from SCENV Meeting of 20 June 2019:

The final draft of the Waste Water document will be available for final comments in July. With reference to the Solid Waste Management section, Dr Colin Ohlhoff was requested to write the Introduction. In the Dairy Declaration of Rotterdam on Sustainability, countries were requested to select two or three indicators, which we did. For the Dairy Sustainability Outlook, case studies were requested. Dr Ohlhoff provided a case

study of the plastic bottle initiative of FairCape.

In the LEAP program of the FAO-IDF, phase 3 has been initiated.

Following a number of interactions with the DSF and the IDF office that it is important to bring carbon sequestration into the calculations of carbon footprint, this has been decided. This to a some extent was also in response to a paper by an Oxford group which shows the lower warming potential of methane, since its lifetime in the atmosphere is only about 12 years whereas that of carbon dioxide may exceed 1000 years. Thus, reduction in methane emissions is less important than returning carbon dioxide to the plants and soil.

No Non-achievements / underperformance has been reported

Goal 8 - Fund travel and accommodation expenses to SANCIDF officials and SC members who need to travel to attend EC and AGM meetings

Achievements

The AGM and one Executive Committee meeting was held in Q2 and the expenses paid to one attendee was R300

No Non-achievements / underperformance has been reported

Goal 9 - Obtain annual reports from South African representatives on IDF bodies (Standing Committees, Action Teams, etc.)

Achievements

Reports were submitted on the work of 11 Standing Committees and one task force. All these separate reports were combined in one document and is attached with this report.

No Non-achievements / underperformance has been reported

Goal 10 - Make information about documents produced by the IDF (Bulletins, Standards and Newsletters) available to levy payers and the general public by publishing the titles on the Milk SA website and in The dairy Mail and Milk Essay

Achievements

IDF sent out the following documents during this quarter and upon receipt, information about Standards and Bulletins as well as the actual press releases, newsbriefs etc. were forwarded to industry leaders, Standing Committee members and associate members:

Standard

Joint Standard ISO 17678/ IDF 202: "Milk and milk products - Determination of milk fat purity by gas chromatographic analysis of triglycerides"
