

## ***Maintenance of existing Skills Development dispensation***

(PRJ-0269-2020)

### ***SAMPRO***

***Quarter 3 2020/2020*** (July 2020 till September 2020)

#### **Project goals**

**Goal 1 - Interactions in respect of acts, regulations, policies and procedures regarding knowledge and skills development in light of the needs of the dairy industry, with the authoritative bodies in the public sector and representatives of other industries**

##### ***Achievements***

No confirmation of Ministerial approval of the submitted amended SETA Constitution has been received and is still awaited. Efforts from the SETA's Chamber Manager to obtain wider representation on the Chambers (as foreseen in the amended Constitution) have reportedly been resumed. A work document to initiate the re-evaluation of credits for Dairyman achievements and amend the grant policy based on the outcome thereof, has been circulated amongst the Advisory Sub-committee. To be addressed in the fourth quarter.

***No Non-achievements / underperformance has been reported***

**Goal 2 - Continuous evaluation to determine whether amendment is necessary of, for example, the curriculum, learning materials, assessment tools and qualifications**

##### ***Achievements***

This is an ongoing task, but very dependent upon the registration of qualifications. Dairyman is fully registered (all 10 specializations) without any recommendation for amendment by QCTO and the current learning materials (including assessment tools) are retained as is. Registration of both Milk Reception Operator and Dairy Laboratory Analyst is awaited to be able to determine the necessity for urgent revisions of existing learning materials.

***No Non-achievements / underperformance has been reported***

**Goal 3 - Promotion of skills and knowledge development in the dairy industry and guidance in respect of it to members of the dairy industry**

##### ***Achievements***

A new Advisory Sub-committee and Advisory (main) committee have been constituted as requested by Milk SA and initial functional meetings have been held. The project was required to contribute with nominations. All reports to Milk SA are also made available to SAMPRO in order to ensure that dissemination of new information - as it becomes available - is available to industry at large.

***No Non-achievements / underperformance has been reported***
